4.1 — DESCRIPTION OF FIRST-AID MEASURES

Inhalation	Remove from exposure site to fresh air, keep at rest, and obtain medical attention.
Eye exposure	Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.
Skin exposure	Remove contaminated clothes. Wash thoroughly with soap and water. Contact physician if irritation persists.
Ingestion	Rinse mouth with water and obtain medical attention.

4.2 Most important symptoms / effects: None expected — see 4.1. 4.3 Immediate medical attention: None expected — see 4.1.

5 Firefighting Measures

5.1 Suitable extinguishing media	Carbon dioxide, dry chemical, foam.
5.2 Special hazards	In case of fire, may be liberated: carbon monoxide, unidentified organic compounds.
5.3 Advice for fire-fighters	In case of insufficient ventilation, wear suitable respiratory equipment.

6 Accidental Release Measures

6.1 Personal precautions	Avoid inhalation. Avoid contact with skin and eyes. See protective measures under Sections 7 and 8.
6.2 Environmental precautions	Keep away from drains, surface and ground water, and soil.
6.3 Containment & cleaning up	Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Contain spillage immediately using sand or inert powder. Dispose of according to local regulations.
6.4 Reference to other sections	Also refer to Sections 8 and 13.

7 Handling & Storage

7.1 Safe handling	Keep away from heat, sparks, open flames and hot surfaces — no smoking. Use personal protective equipment as required. Use in accordance with good manufacturing and industrial hygiene practices, in areas with adequate ventilation. Do not eat, drink or smoke when using this product.
7.2 Safe storage	Store in a well-ventilated place. Keep container tightly closed. Keep cool. Ground / bond container and receiving equipment. Use explosion-proof electrical, ventilating and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

8 Exposure Controls / Personal Protection

8.1 — CONTROL PARAMETERS

Substance	CAS / EC	TWA (8 h)	STEL (15 min)
Acetic acid	64-19-7 200-580-7	10 ppm / 25 mg/m ³	20 ppm / 50 mg/m ³

Reference: UK EH40. Values are workplace exposure limits for the listed component(s).

8.2 — EXPOSURE CONTROLS

Eye / skin protection: Wear protective gloves / eye protection / face protection.

Respiratory protection: Ensure adequate and ongoing ventilation is maintained in order to prevent build-up of excessive vapour and to ensure occupational exposure limits are adhered to. Depending on patterns and volumes of use, additional engineering controls may be required: (a) isolate mixing rooms and other areas where this material is used or openly handled, maintained under negative air pressure relative to the rest of the plant; (b) employ approved, properly fitted respirators with organic vapour cartridges/canisters and particulate filters; (c) use local exhaust ventilation around open sources of potential exposure; (d) use closed systems for transferring and processing this material. Also refer to Sections 2 and 7.
