

Clear Cone Bags

Food-Grade Cast Polypropylene (CPP) — Retail Packs & Bulk Cartons · Revision date: 2nd June 2026

MATERIAL

48 micron food-grade Cast Polypropylene (CPP)

FORMAT

Pointed cone (crimp) bag, crystal-clear

SIZE RANGE

2 stocked sizes, 180 mm & 250 mm opening

PACKAGING

Retail packs of 50 & cartons of 1,000

1 Product Overview

- Yolli clear cone bags are pointed display bags made from food-grade Cast Polypropylene (CPP), manufactured in the UK for consistent quality. The cone shape presents sweets, popcorn, chocolates and gifts at an attractive angle.
- They are a popular choice for pick-and-mix sweet cones, wedding and party favours, popcorn at events, and craft or gift packaging, suiting both hobby confectioners and trade customers. The quoted width is always the open (wide) end.
- Made from Cast Polypropylene (CPP) — a strong, clear, odour-free food-grade film with a glossy, high-clarity finish and good puncture resistance.
- Supplied clear in retail packs of 50 or wholesale cartons of 1,000. Printed cone bags can be produced on request for trade customers with volume requirements.

2 Technical Characteristics

Property	Specification
Material	48 micron food-grade Cast Polypropylene (CPP).
Finish	Crystal-clear, smooth and odour-free.
Format	Pointed cone (crimp) bag, open at the wide end.
Strength	Strong and durable for confectionery and gift packing.
Food contact	Food-safe film suitable for direct food contact.
Closure	Closed with twist ties or ribbon — see Section 4.
Packaging	Retail packs of 50 bags, or wholesale cartons of 1,000 for trade and commercial volumes.
Print	Supplied clear as standard. Custom-printed cone bags available on request.
Manufacture	Made in Britain — UK manufacturing for quality assurance.

3 Size Range & Pack Options

Two cone sizes are stocked, each available as a retail pack of 50 or a wholesale carton of 1,000. Dimensions are quoted as length × opening width (the wide, open end).

Size (L × opening)	Format	SKU	Pack qty
370 mm × 180 mm	Retail pack	CB001	50
370 mm × 180 mm	Bulk carton	CB001-(1,000Pk)	1,000
460 mm × 250 mm	Retail pack	CB002	50
460 mm × 250 mm	Bulk carton	CB002-(1,000Pk)	1,000

Note: The 460 mm × 250 mm size holds approximately 200–250 g of sweets, making it well suited to party favours and retail portions. Carton quantities are nominal pack counts. Custom sizes can be produced for trade volumes on request.

4 Closure Options

Method	Detail
Twist ties	Decorative metallic and coloured twist ties seal cone bags quickly and colourfully — the most common closure for sweet cones.
Satin bow twist ties	Premium satin bow fasteners give a finished, gift-ready look for weddings and events.
Ribbon & hand tie	Ribbon or curling ribbon can be tied by hand for a decorative presentation finish.

5 Typical Applications

- Pick-and-mix sweet cones for children's parties
- Wedding and event favours
- Popcorn cones for cinemas and events
- Chocolate and fudge gifting
- Bath salts and bath bomb packaging
- Small toys and party-bag fillers
- Festive hampers and seasonal gifts
- Retail confectionery display

6 Custom & Bespoke Supply

Custom-printed cone bags are available on the same food-grade film, with logos, ingredients and barcodes printed directly onto the bag. Bespoke sizes outside the stocked range can also be produced for trade customers with volume requirements.

Custom production is subject to minimum order quantities, lead times and confirmation at the time of enquiry. Trade accounts are available for bulk carton supply and tailored pricing. For flat display bags in a wider range of sizes, see the [Clear Cello Bags](#) specification.

7 Supporting Compliance Documentation

A manufacturer's Statement of Compliance is held on file for these bags (supplier-identifying details redacted). It confirms the following for the materials used in food-contact packaging:

- Materials intended for food use are manufactured under the requirements of the BRC/IoP Global Standard for companies manufacturing and supplying food packaging, and are suitable for direct food contact.
- Compliant with the EU and UK food-contact framework, including Regulation (EC) No 1935/2004 (materials in contact with food), Regulation (EU) No 10/2011 on plastics (inclusive of successive amendments and applicable transition periods), Regulation (EC) No 2023/2006 (good manufacturing practice), and the Materials and Articles in Contact with Food (England) Regulations 2012.
- Compliant with European Directive 94/62/EC on packaging and packaging waste. Materials are checked annually for heavy metals under the Packaging (Essential Requirements) Regulations 1998 (No. 1165) and subsequent amendments.
- **Declaration of absence:** certified as not intentionally containing Bisphenol A (BPA) or PFAS. No post-consumer or recycled materials are used.
- **Migration testing:** when tested with olive oil and de-ionised water for 10 days at 40 °C, overall migration was within the limits laid down by EU legislation.

Note: Statement of Compliance dated 3rd January 2024, with an updated revision on file reflecting the latest EU plastics amendments. Supplier name, contact details and certificate reference numbers have been redacted. Specific certificates and declarations can be issued to trade customers on request — confirm exact certification references before relying on them for due-diligence files.

8 Warnings

- Plastic bags can present a suffocation hazard. Keep away from babies and children.
- Not suitable for oven, microwave or boil-in-bag use unless separately confirmed for the finished application.
- Store away from direct heat and naked flames.
