

# Food Allergen Status Statement

**Manufacturing & storage declaration** · Issued by Yolli Ltd in respect of products manufactured within its production environment and products held in its warehouse, setting out the status of the fourteen allergens declarable under UK and EU food law.

DOC. NO.	YOL-ALG-001
REVISION	1
ISSUED	June 2026

## 1 Declaration

**Yolli does not intentionally use, store, handle or process any of the fourteen declarable allergens** as ingredients or production materials within its manufacturing/production environment, and none of these allergens are stored within its warehouse.

Food is not permitted in production or warehouse areas. Staff welfare food is restricted to the separate canteen area and is not used in, stored in, or brought into production or storage areas. Based on our current raw materials, processes, storage and site controls, products manufactured and stored on site are not expected to contain any of the fourteen declarable allergens.

## 2 Status of the Fourteen Declarable Allergens

✓ Celery	NOT USED OR STORED ON SITE	✓ Cereals containing gluten incl. wheat, rye, barley, oats	NOT USED OR STORED ON SITE
✓ Crustaceans	NOT USED OR STORED ON SITE	✓ Eggs	NOT USED OR STORED ON SITE

✓ Sulphur dioxide & sulphites at concentrations above 10 mg/kg or 10 mg/litre	NOT USED OR STORED ON SITE	✓ Tree nuts incl. almond, hazelnut, walnut, cashew	NOT USED OR STORED ON SITE

## 3 Scope & Validity

- This statement covers **products manufactured within Yolli's production environment and products held in its warehouse**, and reflects the allergen status of the raw materials, production materials, storage and site controls currently in place.
- Staff food is only permitted in the **designated canteen area, which is separate from the manufacturing and warehouse environment**; food must not be stored, consumed or brought into production or storage areas.
- Allergen control forms part of Yolli's quality management system; supporting records are **held on file and available to trade customers on request**.
- This statement remains valid while the raw materials, processes and site controls are unchanged, and is **superseded on reissue**. It is reviewed at least annually.
